powermonkey-eXplorer

Worldwide power solutions for technology that travels

...ready for adventure
• Tough and water resistant
• Includes the NEW solar-slave
• Instant power, wherever you are
• The lightest, most versatile charger

You know what it's like. You're away from home, you really need to make that one call... and your mobile phone has just run out of battery power (again). Or maybe you're relaxing on a beautiful beach and your iPod has just played its final tune or you're at the top of a mountain looking out at an incredible view... and your camera battery's dead.

Ultra compact, tough and powerful, the powermonkey- eXplorer is always ready for your next adventure. With the new solar-slave, the powermonkey-eXplorer kit lets you charge wherever, whenever.

Make sure your powermonkey's got full power at all times by charging it with the handy solar-slave, which can be attached to a rucksack, hung from a window, left in a car or taken anywhere the sun shines!

The solar-slave can also be used to charge many of your digital devices, so you have back-up power at all times.

Charging options

Maximum reserve power available:

All iPods - 40 hours
